PII: S0960-0760(01)00034-6

SUBJECT INDEX

AMPA receptor(s)
activation of, inhibits prolactin and estradiol secretion and delays the onset of puberty in female rats, 277
Androgen(s)
electrostatic interactions of, and progesterone derivatives with rainbow trout estrogen recteptor, 129
receptor(s)
transcription of, and 5α-reductase in genital fibroblasts from patients with androgen insensitivity syndrome, 213
pregnenolone stimulates LNCaP prostrate cancer cell growth via the mutated, 1
regulation of the largest subunit of RNA poluymerase II in the rat ventral prostate, 43
stimulation of ornithine decarboxylase activity by, in mouse kidney, kidney, 329
Androgen insensitivity syndrome
transcription of androgen receptor and 5α-reductase in genital fibroblasts from patients with, 213
Apoptosis
DHEA inhibits cell growth and induces, in BV-2 cells, 159
Aromatase
sequence analysis and expression of the P450, and estrogen receptor genes in the *Xenopus* ovary, 101
Aromatase inhibitor formestane
effects on bone metabolism markers of the LH-RH analogue triptorelin with the, in premenopausal breast cancer, 65

Brain glia
pathways of dehydroepiandrosterone formation in, of rat, 177
Breast cancer
effects on bone metabolism markers of the LH-RH analogue triptorelin with the aromatase inhibitor formestane in premenopausal, 65
regulation of steroid sulphatase expression and activity in, 259
Breast cancer cells
modulation of estrogen receptor gene transcription in, by liposome delivered decoy molecules, 121
Breast tumors
association between estradiol, estrogen receptors, total lipids, triglycerides, and cholesterol in patients with benign malignant, 323

Cholesterol sulphate sulphohydrolase
from human placenta microsomes; purification and properties of the dephosphorylated form of enzyme, 335
Cyproterone acetate
highly sensitive and specific time-resolved fluoroimmunoassay of, 315
Cytochrome $P450_{11\beta}$ (11β-hydroxylase)
expression of, gene during gonadal sex differentiation and spermatogenesis in rainbow trout, *oncorhynchus mykiss*, 291

Daidzein
genistein and, modulate *in vitro* rat uterine contractile activity, 201
Dehydroepiandrosterone (DHEA)
immunomodulatory 7-hydroxylated metabolites of, are present in human semen, 273
inhibition of cell growth and induction of apoptosis in BV-2 cells by, 159
pathways of, formation in rat brain glia, 177

Endometrial cancer
steroid receptors and metastatic potential in, 209
Estradiol
association with estrogen receptors, total lipids, triglycerides, and cholesterol in patients with benign and malignant breast tumors, 323
inhibition of, secretion by activation of AMPA receptors in female rats, 277
quantification of rainbow trout (*Oncorhynchus mykiss*) *zona radiata* and vitellogenin mRNA levels using real-time PCR after *in vivo* treatment with, -17β or α-zearalenol, 109
Estrogen
receptor
association with estradiol, total lipds, triglycerides, and cholesterol in patients with benign and malignant breast tumors, 323
electrostatic interactions of androgens and progesterone derivatives with, in rainbow trout, 129
glycosylation of the murine, alpha, 147

modulation of, gene transcription in breast cancer cells by liposome delivered decoy molecules, 121
sequence analysis and expression of the P450 aromatase and, genes in the *Xenopus* ovary, 101
identification and characterization of, variants in prostate cancer cell lines, 21
stimulation of ornithine decarboxylase activity by, in mouse kidney, 329

Genistein
affects lipogenesis and lipolysis in isolated rat adipocytes, 265
and daidzein modulate *in vitro* rat uterine contractile activity, 201
Glucocorticoid(s)
suppression of human immunodeficiency virus type-1 long terminal repeat activity by 283
Glucocorticoid-induced gene
SGK is a primary, in the human, 51
Granulosa cells
steroid sulfatase activity in cultured, in the rat ovary, 245

Human semen
immunomodulatory 7-hydroxylated metabolites of dehydroepiandrosterone are present in, 273
17α-Hydroxylase-C17,20-lyase
development of a simple and rapid assay for the evaluation of inhibitors of human, in *Escherichia coli*, 57

c-*jun*
delayed induction of, in apoptotic human leukemic lymphoblasts is primarily transcriptional, 91

Leukemic lymphoblasts
dealyed induction of c-*jun* in apoptotic human, is primarily transcriptional, 91
Leydig cell
possible involvement of ceramide in the regulation of rat, function, 307
LNCaP prostate cancer cell
pregnenolone stimulates the growth of, via the mutated androgen receptor, 1

MCF-7 human breast cancer cells
estrogen-induced mitogenesis of, does not require the induction of mitogen-activated protein kinase activity, 11

NADPH-cytochrome-P450-reductase
development of a simple and rapid assay for the evaluation of inhibitors of human 17α-hydroxylase-C17,20-lyase by co-expression of P450C17 with, in *Escherichia coli*, 57
Neuroactive steroid(s)
precursors of, and polar conjugates during parturition and postpartum in maternal and umbilical blood, 237
Nitric oxide
inhibitory effects of stress-activated, on antioxidant enzymes and testicular steroidogenesis, 299

Pregnenolone
metabolism of, in transformation of steroids by *bacillus* strains isolated from the foregut of water beetles, 187
stimulation of LNCaP prostate cancer cells growth by, via the mutated androgen receptor, 1
Progesterone
electrostatic interactions of androgens and, derivatives with rainbow trout estrogen receptor, 129
receptor(s)
cloning and cellular localization of the canine, co-localization with growth hormone in the mammary gland, 219
non-steroidal, ligands with unprecedented receptor selectivity, 33
Prolactin
inhibition of, secretion by activation of AMPA receptors in female rats, 277
Prostate
androgen regulation of the largest subunit of RNA polymerase II in the rat ventral, 43
Prostate cancer cells
identification and characterization of estrogen receptor variants in, 21

Receptor(s)
androgen
transcription of, and 5α-reductase in genital fibroblasts from patients with androgen insensitivity syndrome, 213
estrogen(s)
association with estradiol, total lipids, triglycerides, and cholesterol in patients with benign and malignant breast tumors, 323
electrostatic interactions of androgens and progesterone derivatives with, in rainbow trout, 129
glycosylation of the murine, alpha, 147
identification and characterization of, variants in prostate cancer cell lines, 21
modulation of, gene transcription in breast cancer cells by liposome delivered decoy molecules, 121
sequence analysis and expression of the P450 aromatase and, genes in the *Xenopus* ovary, 101
progesterone
cloning and cellular localization of the canine, co-localization with growth hormone in the mammary gland, 219
non-steroidal, ligands with unprecedented receptor selectivity, 33
5α-Reductase
transcription of androgen receptor and, in genital fibroblasts from patients with androgen insensitivity syndrome, 213
5α-Reductase type 2
enzyme assay for, activity in the presence of 5α-reductase type 1 activity in rat testis, 75

Sex hormone binding globulin
interactions between human plasma, and xenibiotic ligands, 167
Sex steroid binding protein
human plasma, identification of TYR-57 and MET-107 in the steroid binding site, 139
Steroid(s)
receptor(s)
and metastatic potential in endometrial cancers, 209
Steroidogenesis
inhibition of, by econazole and miconazole, 229
inhibitory effects of stress-activated nitric oxide on testicular, 299
Steroid sulphatase
activity in the rat ovary, cultured granulosa cells and a granulosa cell line, 245
inhibition of, activity by tricyclic coumarin sulphamates, 253
regulation of, expression and activity in breast cancer, 259

Triptorelin
effects on bone metabolism markers of, the LH-RH analogue with the aromatase inhibitor formestane in premenopausal breast cancer, 65

Vitellogenin mRNA
quantification of rainbow trout (*Oncorhynchus mykiss*), levels using real-time PCR after *in vivo* treatment with estradiol-17β or α-zearalenol, 109

We would like to express our deep thanks to the following persons for their kind collaboration in reviewing papers for this volume of **The Journal of Steroid Biochemistry & Molecular Biology:**

ABALAIN H.J., Brest, FRANCE
CLARKE R., Washington, U.S.A
FRENCH F.S., Chapel Hill, U.S.A.
LUU-THE V., Quebec, CANADA
MORFIN R., Paris, FRANCE
PUROHIT A., London, ENGLAND, U.K.
ROMMERTS F.F.G., Rotterdam, The NETHERLANDS
SCHAAF M., Research Triangle Park, U.S.A.
SCHUMACHER M., Le Kremlin-Bicêtre, FRANCE
YLIKOMI T., Tampere, FINLAND
